

Roadway Construction for Week of 06/19/2006

Clark County

(360) 397-6118 ext. 4944

N.W. 119th Street/N.E. 117th Street from N.W. 7th Avenue to Highway 99

N.E. 117th Street remains under construction between Highway 99 and Hazel Dell Avenue. The roadway is open to traffic, but delays should be anticipated. This project is expected to be completed in June, 2006.

N.E. 15th Avenue, from Union Road to N.E. 179th Street

Construction of a new road segment from Union Road to N.E. 179th Street is underway. Expect periodic traffic delays on Union Road, north of the Whipple Creek Bridge and on N.E. 179th Street just east of I-5. This project is expected to be completed in November of this year (2006).

N.E. 137th Avenue, from N.E. 71st Street to N.E. 76th Street

N.E. 137th Avenue will be closed to through traffic between 71st Street and 76th Street beginning June 21 for road improvements. Local access will be provided, but all other motorists must seek alternative routes. The road will not reopen to all traffic until September.

Pacific Highway (between La Center and Woodland)

About 200 feet of Pacific Highway between La Center and Woodland is restricted to one travel lane with alternating traffic flow north and south. Earth movement this winter on a steep slope below the road undermined the southbound lane. The county has installed barriers to close the southbound lane about three-quarters of a mile south of Bratton Road. Repair work will begin later this summer.

Klineline Force Main – Segment C – Felida Park to Salmon Creek Treatment Plant

Expect delays for utility installation work on N.W. McCann Road, N.W. 44th Avenue, N.W. 127th and N.W. 131st Streets. For the latest project information visit:

www.cleanwaterpartners.net.

Salmon Creek Avenue (between N.E. 134th Street and N.E. Betts Road)

Construction on Betts Bridge is under way on Salmon Creek Avenue. The road is completely closed through December 2006 for bridge reconstruction with local access provided.

Salmon Creek Avenue (between I-205 and N.E. Corbin Road)

Construction of the Upper Salmon Creek Interceptor segments 4 & 5 (a major sanitary sewer project) will begin in the next week. This project will close portions of Salmon Creek Avenue to all but local traffic during construction hours. After construction hours the road will be open between Corbin Road and I-205. This project is adjacent to the Betts Bridge replacement project and is being coordinated

with that work. There will be detours and frequent delays within the above noted limits.

Clark County
(360) 397-2446

N.E. W.H. Garner Road (between the Yacolt city limits and N.E. Kelly Road)

Clark County Public Works will reconstruct N.E. W.H. Garner Road between the Yacolt city limits and N.E. Kelly Road. Periodic lane closures will be necessary. Motorists should follow pilot cars when single lanes are closed. Expect delays of up to 20 minutes for intermittent road closures. The project begins June 19, weather permitting and will last approximately seven working days.

City of Vancouver
(360) 696-8050 or 696-8071

N.E. 138th Avenue (between 18th and 28th Streets)

Drivers are urged to drive slowly and be alert to changing traffic patterns with the start of roadway construction. Expect traffic on 138th Avenue within project boundaries to shift west while crews remove old surface and prepare for retaining walls on the east side. In addition, expect traffic on 18th Street near 138th Avenue to shift to the north side of the street, while crews remove old roadway surface on the south. During this time, the traffic signal at 141st Avenue and 18th Street will be removed. Total project includes widening and reconstructing existing roadway, bike lanes, new sidewalks, improved traffic signals, streetlights and landscaping.

S.E. 192nd Avenue

Cleanup and other finishing efforts continue on the S.E. 192nd Avenue Phase III extension.

Esther Street

Closed between Sixth and Fourth streets for private building construction.

Washington State Department of Transportation
